

Evaluation

We will use DSLab (<https://sd.uoc.edu/dslab>) to automatically assess the implementation parts of the practical assignment. You will get further details in each phase.

You will receive a registration message from DSLab.

1st deliverable (TSAE theoretical exercise and phase 1 of the implementation)

A: Everything correct [practical part evaluated at DSLab]

B: Theoretical part correct

C+: theoretical exercise 1 or 2 correct and practical part (evaluated at DSLab) correct

C-: theoretical exercise 1 or 2 correct or practical part (evaluated at DSLab) correct

2nd deliverable (phases 2 to 4 or theoretical exercise second deliverable)

Phase 4: up to a grade of A

Phase 3: up to a grade of B

Phase 2: up to a grade of C+

Theoretical exercise of 2nd deliverable: up to a grade of C+

Final grade

Three options:

(a) Student implements phases 2 to 4 in the second deliverable of the practical assignment

	Grade 2 nd deliverable (phases 2 to 4)					
	A		B	C+	C-	D
	Phase 4.1 at DSLab		Phase 3 at DSLab	Phase 2		
	And Phase 4.2	And No Phase 4.2		At DSLab		
A@phase1	10	9	8	7	5.5	5
B@phase1	9	9	8	6	5	4
C+@phase1	8	8	7	6	5	4
C-@phase1	7	7	7	6	4	4
D@phase1	6	6	6	5	4	D
N@phase1	6	6	6	5	4	D

NOTE: Students that choose option A (implementation of phases 2 to 4) in the second deliverable can get an extra grade up to 0,7 points in the final grade of the practical assignment (with a maximum final grade of 10) if they also do the option B (theoretical exercise).

(b) Student does the theoretical exercise in the second deliverable of the practical assignment

	Theoretical exercise 2 nd deliverable		
	C+	C-	D
A@phase1	6	5.5	5
B@phase1	5.5	5	4
C+@phase1	5	4	4
C-@phase1	5	4	4
D@phase1	4	4	D
N@phase1	4	4	D

(c) Student delivers only first deliverable

	2 nd deliverable
	N
A@phase1	5
B@phase1	4
C+@phase1	4
C-@phase1	4
D@phase1	D
N@phase1	N
